First, I will introduce myself. My name is Aurélien Hudebine. I am coordinator and trainer for the Comité Badminton de la Vienne.

I have red the ebook « Sports Formula » on the epubeditor website.

It was very interesting according to my sports-trainer's point of view. Many sports were involved, and some of of problems could be useful, even in my own job.

There were also some parts not very easy to read, and the informations were a bit messy to find.

But the whole idea is great and really efficient.
