

1. Visit in Toruń – the birthplace of Nicolaus Copernicus. Students and teachers visited the city with two tourist guides and later took part in the gingerbread workshop. They learned there the history of the famous Toruń gingerbread craft, which had its origins in the 14th century.

2. Discovering the laws of science in Copernicus Science Center. Participants of mobility observed their bodies, its' fitness, limits and features. They also had possibility to discover mysteries of the six senses, time perception and functioning in a certain environment.

3. Quiz about Europe organised by the Polish students. The whole show was organised in details by the third grade students, who wrote software, prepared hardware and led the game. All participants could share and improve their knowledge and all of them had a lot of fun.
